

Madhuri Awatade
Software Development Engineer
Mobile No. -9970748471
Email Id – maddyawatade@gmail.com

Full stack developer with 2+ years of experience creating scalable web applications and internal tools that increase efficiency. Throughout my career, I have created applications that have been used by millions of people. Enthusiastic and eager to contribute to team success by providing optimized and smart solutions, Attention to detail and excellent organizational skills.

PROFESSIONAL SUMMARY:-

- Having 2 years and 5 months of experience in developing Spring boot Application and Web and Enterprise Applications using technologies Java, Spring MVC, React, Spring Boot and Hibernate.
- Collaborate with the business to create an end-to-end web application using React and Spring Boot.
- Proficiency with asynchronous JavaScript and Promises
- Familiarity with Axios, Fetch API, or other HTTP client libraries
- Experience with state management libraries like Bootstrap, Material UI ,Context API
- Understanding of authentication mechanisms such as JWT and SAML
- Ability to handle API errors and implement error handling strategies in React applications
- Setup and deployment on the server.
- Google Analytics integration and report generation.
- Work on reusable react components and the Rest API.
- Hands on experience in Spring Boot, Core Java, JDBC, Collections, JSP, Spring MVC and Hibernate.
- Highly skilled in specification gathering, troubleshooting and quality assurance testing.
- Hands on experience in using Eclipse , Visual Studio Code, Postman, Devops.
- Knowledge of Servlet and JSP.
- Completed hands-on development training through Jolt, focusing on full-stack web technologies, real-time data handling, and cloud deployment.
- Good Team player and have ability to work independently.
- Adaptive to learn new technologies.
- Easily mingle with any environment and hardworking nature.

AREA OF EXPERTIES :-

- Spring boot
- Spring MVC
- React JS
- MySQL
- Linux
- Google Analytics

TECHNICAL PROFILE :-

IDE Tools	Eclipse, SQL developer
Java Technologies	Core java, Collections, Jsp, JavaScript.
Frameworks	Spring MVC, Springboot, React js
ORM tool	Hibernate
Operating System	Linux, Windows , macOS
Database	MySql, Oracle, Redis

PROJECT EXPERIENCE:

Organization : Reliance Industries Limited

Duration : 05th Oct 2021 to 23rd March 2024.

- **Project** : Webinar Admin, People First, Survey Portal
- **Client Name** : Reliance JIO
- **Domain** : Enterprise Development
- **Team Size** 30
- **Environment:**
 - **Programming Languages** : SpringBoot, SpringMVC, Core Java, Hibernate, React
 - **Operating Systems** : macOS, Windows
 - **Tools** : Eclipse, MySQL workbench, Vs code, Postman
- **Project Description:**
 - Reliance JIO provide work environment to develop many applications like WebinarAdmin, Camunda JFS, Women's Collective. All application is based on Micro services,
 - Front-end Technology like JSP and JS and React js.
 - Jio Events(AGM) Portal Responsible for developing webinar and AGM portals in React for various Reliance and affiliated companies.
 - Responsible for RESTful Service API design, documentation, and development using Spring Boot and MySQL.
 - Google analytics report generation. Server application setup and deployment. Speaker Portal Using React JS, create the frontend for the AGM speaker portal.
 - API development with Spring Boot and MYSQL.
 - R-Ansh Responsible for the development of the R-Ansh portal for customer resolution using react front end and spring boot API.

- **Webinar Admin** –

Role : Team member

Technologies : Spring Boot for backend , React js for frontend

Description :

Webinar portal is used for creating number of virtual events.

When Corona came, it was not possible to hold the Annual General Meeting offline.

Then we created a webinar portal so that we could organize a virtual huge event there .

More than a million people use the AGM portal developed for Reliance and its subsidiaries at any given time.

- **People First** –

Role : Team member

Programming Languages: JavaScript

Technologies : React.js, HTML5, CSS3

Description :

Primary goal of Jio's BRMS portal (Business Rule Management System) is to generate and easily integrate dynamic business rules with minimal programming effort.

Drools rule engine is used for business rule management.

SSO is also included in the application, allowing for easy access throughout the organization.

It is used in Jio HRMS and many of other internal Jio applications that require rules and conditions.

Implemented RESTful API integration in React for this projects to fetch and display dynamic data.

Fetch API for making asynchronous HTTP requests to backend APIs.

Worked with state management libraries like React Bootstrap, Material UI,Context API to manage API data with in React components.

Experience with authentication and authorization using JWT and SAML Authantication in React applications.

➤ **Roles and Responsibilities:**

- Requirement Analysis & Design.
 - Responsible to Develop all the requested code.
 - Responsible for Level-2 and Level-3 development.
 - Responsible to write business logic base on requirement
 - Responsible to write utility code and calculations.
 - Responsible to review the code implemented by other team member.
 - Responsible for system and regression testing.
-

EDUCATION DETAILS:-

Qualification	College	Specialization	Board / UNI	Year	Percentage
B.TECH (Electronics and Telecommunication)	Dr. Babasaheb Ambedkar Technological University,lonere	Electronics Engineering	DBATU	2021	7.82
Diploma (Electronics & Communication)	Government polytechnic , solapur	Diploma (Electronics & Communication)	Maharashtra	2018	8.83
S.S.C.	Shree kurmadas vidyamandir ,Laul		Maharashtra	2015	90

ACHIEVEMENTS:-

More than a million people use the AGM portal developed for Reliance and its subsidiaries at any given time. Organize decorations for events. participated in collage events.

Participated in Smart India Hackathon (SIH) and won the Competition. I handled the CYNOSURE 2K19 Technical event as a event co-ordinator of LOGIQUE EVENT.

PERSONAL DETAILS:-

Date of birth	: 16 April 1999
Language known	: English, Hindi, Marathi.
Address	: Solapur

I, hereby declare that all the information provided is true to the best of my knowledge and belief.
